

## **Exhibit Index — Form I-140 (EB-1A)**

**Petitioner:** Paulo Fernandes Biao

### **Exhibit A — Cover Letter (EB-1A)**

Legal cover letter summarizing the petition and establishing eligibility under the EB-1A criterion of original contribution of major significance.

### **Exhibit B — SecureBank™ Core Whitepaper**

Technical and conceptual whitepaper presenting the SecureBank™ framework, its five-layer architecture, systemic risk modeling approach, and decision-grade methodology.

### **Exhibit C — SecureBank™ Executive Brief (Standalone)**

Executive-level summary translating the SecureBank™ framework into governance, financial, and regulatory decision language suitable for boards and senior leadership.

### **Exhibit D — SecureBank™ Architecture Diagram**

Visual representation of the five-layer SecureBank™ architecture, illustrating threat propagation, systemic dependencies, impact quantification, regulatory exposure, and decision outcomes.

### **Exhibit E — EB-1 Evidence Mapping**

Structured mapping connecting SecureBank™ materials to the EB-1A criterion of original contribution of major significance.

### **Exhibit F — Authorship and Attribution**

Documentation establishing Paulo Fernandes Biao as the sole author and creator of the SecureBank™ framework and related materials.

### **Exhibit G — Applied Hypothetical Scenario**

Illustrative scenario demonstrating how SecureBank™ models systemic propagation, financial loss accumulation, and regulatory escalation in a realistic financial environment.

### **Exhibit H — Regulatory Defensibility Materials**

Materials describing decision records, regulatory alignment, and defensibility mechanisms produced by the SecureBank™ framework.
